Price List of Evergreens

FOR SPRING SHIPMENT 1941

TERMS AND CONDITIONS

PLEASE READ THIS BEFORE ORDERING

25 trees of the same size and kind are sold at the 100 rate, 250 at the 1,000 rate. We do not sell less than 10 trees of one size and kind, except where prices are quoted "per each".

To find the 1,000 rate, multiply the 100 rate by eight. To find the ten rate, divide the 100 rate by eight.

Terms, cash with order. Minimum order accepted, \$1.00.

Packing is free, but postage is extra. Express or freight shipments will go collect. Because of the perishable nature of evergreens, C. O. D. orders are not accepted.

Trees will be shipped postpaid if sufficient postage is added when remitting. We will refund all postage not used. For orders under \$2.00, add 50%. For other orders, add 25% up to the fifth zone, and for greater distances add 35%, unless the order includes a large proportion of six-year stock, when it will be necessary to add 35% for the fifth zone, and 50% for further zones. Express shipment is economical for orders over \$10.00.

Our trees are transplanted at the age of two years, and again at the age of four years. Three and four-year trees have excellent roots, and five and six-year trees have excellent roots and also tops which are filled out and bushy. The letter T is used to designate transplants, TT to designate twice-transplanted trees. "S" indicates seedlings, which have not been transplanted.

Early shipment, during February and March, may be had of a number of items in List A. These items are marked by an asterisk. However, only a small amount of stock is available for early shipment. If the spring weather is normal, shipments from our Peru nursery will be sent out from April 1st to 15th, and from our Gray nursery, April 15th to May 1st.

LIST A—Shipment from Gray, Maine

Kind	Age years	Size inches	Per each	Per 100
*Balsam Fir S	2	1-3	\$1.00

To get the 1,000 rate, multiply by 8. To get the 10 rate, divide by 8.

TREE SEEDS

The seeds offered here are from the same lots which we will plant in the spring of 1941. Packets contain one-fourth ounce, and there are from 20,000 to 150,000 seeds per lb., depending upon the kind. Prices include postage.

Kind	Per packet	Per ounce
Norway Pine25	.60
White Pine15	.30
Scotch Pine15	.30
Colo. Blue Spruce20	.60
Douglas Fir (Colorado type).....	.20	.60
Canadian Hemlock25	.75
Balsam Fir15	.30

DIRECTIONS FOR PLANTING

Plant in soil which is naturally acid, or if this is not available, add aluminum sulphate before planting at the rate of one ounce per square foot. Seeds should be covered lightly, pressed down well, shaded, and kept shaded for eight weeks after germination.

TESTIMONIALS

We do not quote old testimonials, as we have new ones every year. Here are two of the latest, from letters in our files:

Oct. 30, 1940—"Received the 90 evergreens and they are certainly fine." Signed, Larry Hatlett, Fairfield, Illinois.

Nov. 12, 1940—"It is a pleasure to do business with honest people." Signed, R. E. Berglund, 5338 Broadway, Oakland, California.
